

Laptop N23

DESIGNED FOR EDUCATION

Rugged, and Durable

- Drop resistant — built to withstand bumps and accidental drops from up to 70cm (2.3 feet)
- Stronger, thicker rear cover and a frame around the screen, sides and corners absorb the force of bumps and reduce damage when dropped.
- Reinforcement around ports and hinges adds durability that stands up to student wear and tear
- Anti-peel keys resist removal by students
- Water resistant keyboard channels spills (up to 330m1) away from the electronics to prevent damage.
- Sealed touchpad protects the electronics from moisture and spills
- Non-slip texture hides wear and scratches and helps the students to better grip the device
- Fanless design eliminates the need for bottom vents which helps keep debris away from the electronics

Designed for Education

- 360 Degree Hinge allows for seamless transition from traditional PC to Tablet style device
- The anti-glare screen produces less reflection under florescent lights and near classroom windows, reducing student eyestrain.
- With up to 10 hours of battery life, teachers and students can work where they need to without a power cord. The battery is serviceable and can be replaced by school IT.

First in Service - First In Technology

Performance

Processor

Intel® Braswell Celeron® N3050, N3060

Operating System

Microsoft® Windows OS

Memory

2GB, 4GB or 8GB option
